As the winter and all its snow becomes a memory, we avid, hard-core disc players yet again have the opportunity to expose the general public to the excitement and fun of flying disc sports. This opportunity is the World's Biggest Disc Golf Weekend, May 14 & 15, 1994. This is still the best deal for the money. Picking your own tee time, the disc of your choice, and a 100% cotton tee shirt. How can you top this for only \$10? How about you making a difference by helping get another pole hole course established in New England? The course with the largest paid turnout of players at one course during the WBDGW will win 9 pole holes in one of three different divisions. There is also an individual award for the person who signs up the most people to play. You can make a difference.

Last year the Caped Cod Fish Golf Association was second in the most players competition with an amazing 216 players. This was due to the undying dedication of Lev and Nancy Malakhoff, Lindsey Counsel and the members of CCFGA. The course at Marston Mills is a really fun course with short deceptive holes to long very tricky holes. It plays rather quickly; you can play 18 holes in about an hour. NEFA's travelling pole holes were installed there for the winter. I think that there is better than a good chance that this course will home to 9 brand new Mach III pole holes after this year's competition. All of this is possible through your participation in this event.

And that's not all you can do to make flying disc sports more recognized. The Presidential Sports Award program now has a classification for disc sports. The government and others use participation figures from these awards to determine how popular a given sport is. If we want to prove to the real world that disc sports are not just a small fanatical cult thing, then we as the people who play must teach others the thrill that we have found by throwing a piece of molded plastic. To earn the Presidential Sports Award for the Disc Sports division you must practice flying disc skills a minimum of 50 hours with no more than two hours credited to the total per day, and practice must include work in at least three of the recognized events; accuracy, distance, self-caught-flight, golf, freestyle, discathon, ultimate, guts, or double disc court. The skills practice should be completed in no more than four months. You must keep a log of your practice and when you have put in your 50 hours you will

continued on page 4

Editor's Note

Welcome to NEFA News 1994!

The sports of disc play are on the rise in New England. The popularity, skill levels, organization, and standardization of these sports are all increasing. The many types of disc sports range from Golf, Ultimate, Freestyle, Guts, Double-Disc-Court (DDC), and Discathon, as well as the field events like Accuracy, Distance, Maximum-Time-Aloft (MTA), Throw-Run-&-Catch (TRC), and Self-Caught Flight (SCF). This does not include the many variations we all play informally. The point is that there is a game for everyone and everyone likes a game.

This publication, is a service of the New England Flying Disc Association, and has therefore set its sights on being a communicator of, and for, the disc-playing community. We hope that we are successful and know that our success depends on you. We invite you to share your disc-related ideas and information with us. Please let us know how we can better serve you.

Meanwhile, we here in New England are finally able to stick our storm-shocked heads back out the door and see the ground. We can even see that the land will soon turn green. The winter of sixteen storms has left us at last. And that means we can once again throw a disc without snow and cold, and wind and ice and sleet and frost heaves and wind-chill and boots and gloves and layers of clothes and..... Well the spring and summer season are quickly upon us and off we go outside. So let's play some disc, and have lot's of fun, get our friends involved.

May your discs fly like you imagined.©

President's Hole *continued from 3*

have earned five things: a certificate of achievement signed by President Clinton, a letter of congratulations from Arnold Schwarzenegger, a blazer patch with disc sports insignia, a sports bag identification tag, and a shoe pocket. You can also qualify for the Family Fitness award if a parent/guardian and one or more child apply to receive the award at the same time. For more information about this program call 317-872-2900 ext. 48 or ext. 50.

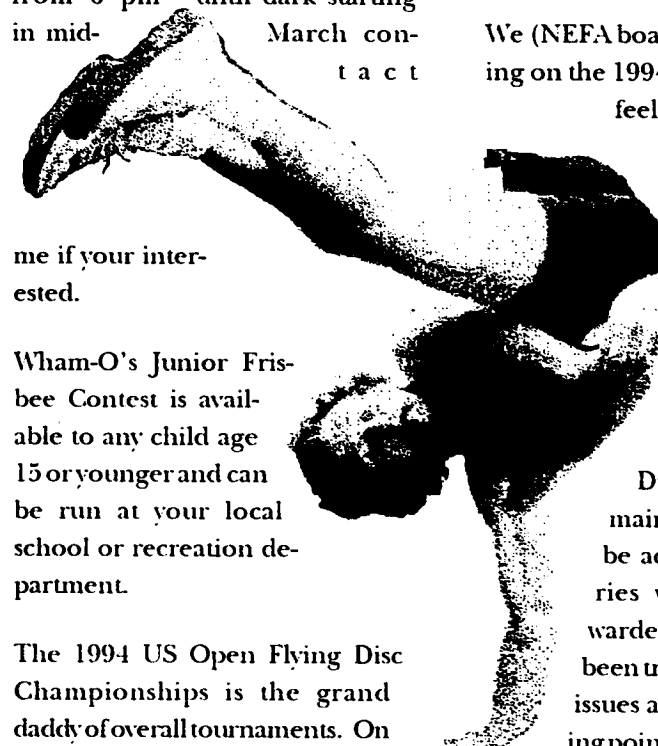

As an amateur organization promoting flying disc sports, we its members have a real opportunity to do just that. In this season of the Olympics let's just dream for a moment and think that disc sports are in the Olympic games. An elusive reality, but for the diligence of the NEFA membership and other groups like us, it will happen!©

From the Veep

I am glad to be alive and well, and am looking forward to this season. I hope you are too!

Announcing Normandy Farms Golf League, every Wednesday night from 6 pm until dark starting in mid-

March con-
t a c t

me if your inter-
ested.

Wham-O's Junior Frisbee Contest is available to any child age 15 or younger and can be run at your local school or recreation department.

The 1994 US Open Flying Disc Championships is the grand daddy of overall tournaments. On August 14 through 21 competitors from around the world will be in Fort Collins, Colorado (Jeff O'Brien's home town). You can bet I will be there. The only prerequisite to competing is that you have participated in a 1993 or 1994 State Overall Championship. That should be a piece of cake for any NEFA

player. For more information contact **The Wright Life** at 303-484-6932 for an invitation. It has been 20 years since the first Rose Bowl overall disc competition..... Relive the excitement!

We (NEFA board) have been working on the 1994 season schedule. I

feel we should continue

the NEFA points

series, but there

has to be

s o m e

changes.

First is it

should

be called

NEFA Golf Points.

Disc golf will be the

main focus. Points will

be added up and the se-

ries winner will be re-

warded. The board has

been trying to resolve other

issues about format, award-

ing points, etc. and welcomes

your feedback.

Congratulations to Dale Fuller, the Milliskins champion, and to Jeff O'Brien the Oak Grove champion.

See you all Wednesday evenings at Normandy and April 16-17 at the Virginia States.©

Publicize NEFA

Dear NEFA,

I have a suggestion which I believe will help disc sports and NEFA grow more dramatically.

Print up many NEFA ads which players can pick up at tournaments and then keep them in their disc bags. Players can then hand these out to people who approach them during practice and seem interested in learning more.

The sheet can include a NEFA membership form, Discovering the World address and phone number, a few statements about the sport, and mention the fact that there is a novice division for beginners to encourage them to participate.

These sheets will act as an advertisement for NEFA and, I believe, the opportunity to bring in new players more than offsets the cost of the sheets. You should also print one sheet in every NEFA newsletter and encourage players to make copies themselves.

I feel very strongly that this will help the sport grow because this should solve the problem interested people have in getting the basic information they need to start competing.

I believe all organizations should design their own and print them in their publications as well.

Sincerely,

Jerry Seidel

Biggest is Best

What do we do this May? Well, we go ahead and rake the autumn's leaves, pine away for our tax refund checks, and CIVILLY COERCE EVERY LIVING SOUL WE ENCOUNTER TO BE A PART OF SOMETHING. That something is, of course, the World's Biggest Disc Golf Weekend coming May 14th and 15th.

For those of you just thawing out of a glacier - WBDGW goes on simultaneously all over the globe - with success being measured by participation. Cape Cod's course - Burgess Park - was so successful last year (216 entrants) that we came in 2nd versus courses without poleholes and 7th place overall IN THE WORLD. This turnout won us our first polehole.

As this year's incentive, the Disc Golf Association is offering three

sets of 9 poleholes based on the largest turnout in three divisions (big city, small city, and no course). We qualify both as a course without poleholes and as a 'small city' course. How you could consider Marston Mills a small city is beyond me. Either way that you look at it, we're the leader in two categories based on last year's figures.

The keys to winning the poleholes are participation, signing up early, and signing up a lot. NEFA members could push us over the top. All we ask is that you come to play and have some fun. Ironclad excuses not accepted.

Lev Malakhoff

Disc Golf Enthusiasm

Dear NEFA,

This will be the year that I will finally meet all you guys (Tim, Toddy, Rick, Steve, John, Deanna, et. al.) for sure. Let me also thank you for the heart warming write-up you gave me in the 'CURRENTS' section of the December '93 NEFA News. God bless you all. How in the world could I have missed that nice big bold print! Kraig Steffen, our PDGA pro from Milford, CT pointed it out to me when he came down for my 1st Shantok Ice Bowl.

Kraig and myself have some plans for the future for definitely strengthening disc golf here in CT. He, by the way, shot a fine -1 round on the short South course at Shantok State Park. Ten competitors participated.

In closing, I want to work with NEFA this year to help out in our goal of having disc golf come to the Foxwoods Casino. I need your help, for you guys have the players and equipment for a tournament there. You also have the knowledge and know-how of running a fine interest raising event.

In a couple of weeks, I am going to start doing disc golf exhibits in the employee cafeteria, exposing and answering questions about the game to hundreds and hundreds of employees. We are also having a definite casino employees CO-ED disc golf league in the Spring. The possibility of holding the World's Biggest at the casino is also not out of the question. I know NEFA could really help out in this endeavor also. I'll keep you posted on my plans.

P.S. I'll surely play in some NEFA events this year!

Again thanks & sincerely,

Bill Mikuliewicz

Congratulations to **Greg Black** and his wife **Jeannie** on the birth of their daughter **Kelsey Black** on February 23, 1994. Kelsey weighed in at 10lbs. 2oz. and stretched out for a 20 1/2 inch measurement. Another future disc player is born.

Judy Robbins was in Boston, briefly, during the December holidays, but had time to freestyle with **Mark Kudarauskas** and **Rick Williams**. She also paid a visit to first-time parents **Petri** and **Paula Isola** whose baby boy, **Jaska Paolo Isola**, was born on December 15th at 1:32am weighing six pounds fourteen ounces. Congratulations! The disc family continues to grow.

Congratulations to **Harvey Brandt** who placed 2nd overall behind Conrad Damon in the 18th annual Arizona State Flying Disc Championships in Scottsdale, AZ on December 11 & 12. Congratulations also to **Judy Robbins** for successfully running the event. Sixty competitors showed up for accuracy, MTA, distance, freestyle, DDC, & golf.

Carl Emerson is looking for frisbee players to help with a frisbee demo at 'Pomfret Days' on July 30th in Pomfret, CT. The event includes crafts, demos, food, and history with a live radio broadcast. Attendance last year was over 800 people. If anyone is interested in assisting with a frisbee demo call Carl Emerson at 203-963-2057 or 203-928-1363.

Tournament Directors:

We are trying to locate any and all NEFA scorecard clipboards. The 5"x7" clipboards have been used at events over the last few seasons and many have been lost or not returned. Anticipating a huge turnout at the June '94 Maine State Flying Disc Championships, John Rushlow is coordinating an effort to gather the scattered clipboards as quickly as possible. If you have any or can help locate some, please call John (day: 800-370-3648/nite: 207-934-7576). Thanks!

Presidential Sports Award for Disc Sports

The President's Council on Physical Fitness and Sports has approved the category of Disc Sports for the Presidential Sports Award Program. This program has been offered since 1972 and is administered by the Amateur Athletic Union. The award, which includes a special disc sports patch and a personalized presidential certificate, is earned by submitting a signed log of 50 hours of disc sports activity.

The entry of disc sports to this program represents great opportunities for both disc golfers and for the publicity of disc sports. Disc players can earn a sense of accomplishment from the Award. It also provides a great way to involve more people in disc sports. In addition, it gives us an opportunity to demonstrate just how many people are interested in disc sports. The number of people participating in the 66 different activities eligible for the Presidential Sports Award serves as an annual measure of interest in each sport. The Presidential Sports Award for Disc Sports is beneficial not only to you and your family, but also beneficial to the future of disc sports in general. So sign up today. For more information send a self-addressed stamped envelope to:

NEFA Board Meeting Minutes for February 3, 1994

1. Minutes of previous meeting read and accepted as written.
2. Treasurer's financial report read and accepted as written.
3. Database mailing list updated, Steve will mail post cards to non-members not heard from in last few years. Telephone tree discussed.
4. Newsletter deadline is February 27, 1994 for the Spring issue.
5. NEFA's poleholes will stay at Burgess Park until the Oak Grove Open. The trailer is assumed to be somewhere in Marston Mills.
6. Seeking bids for chain and steel to convert NEFA's pole holes to Mach II style.
7. Trailer registration is due soon.
8. Schedule discussed.
9. NEFA points have not changed for 1994.
10. Vice President criteria suggestions tabled till next meeting.
11. Vice President will become competition director to help coordinate schedule and formats.
12. The Incorporation of NEFA will be researched and discussed at the next board meeting.

 *Office includes PO Box fee, bank service charges, and miscellaneous postage, minus checking account interest income.

150 Class Discs: Where Less is More

by Tim Geib
reprinted with permission from Flying South

You may have experienced this before, as I have: You're teeing with the newest and best long-distance driver available. You give a mighty heave, but in spite of your best effort the disc doesn't fly flat but instead falls left and lands well short of the hole.

Wouldn't you rather experience this: the disc levels out easily and flies flat for a long distance and then, toward the end of its flight, seems to refuse to fall from the air as it carries farther down the fairway. Have you suddenly acquired a "rocket arm"? No, you're throwing 150 class discs!

What is 150 Class and why does it exist? 150 Class is a division of competition limited to using discs that weigh 150 grams or less. The World Flying Disc Federation (WFDF) created the 150 Class by adopting lower weight limits and limiting stiffness of plastics used in the discs in the interest of safety.

Why can a light disc fly farther than a heavier disc? Don't you need the momentum of a heavier disc to

overcome wind resistance? Yes, momentum helps overcome wind resistance, but unless you generate the arm speed needed to throw 350 feet, you may not be generating enough speed to throw some of today's long-distance drivers. Many of these discs, such as the Viper, are "over-stable" and require a great deal of speed in order to plane out and fly flat, a requirement for achieving maximum distance. Since momentum also resists your arm speed when you throw the disc, it may be preventing your drives from reaching the speed they need. However, a 150 Class disc has less momentum and can be thrown faster. Also, the momentum is a function of mass, which translates into weight. The heavier the disc, the faster it overcomes the lift of the disc and falls to the ground. Result: the 150 Class disc will carry longer at the end of its flight than a heavier disc flying at the same speed. When all these factors act together on a disc, the result is longer flights with 150 Class discs, and longer putts.

150 Class discs present the greatest opportunity for improvement to the

continued page 12

150 Class

150 Class continued from 11

amateur golfer. Most amateurs can't generate the arm speed needed to make the more advanced discs perform. However, for the reasons explained above, the amateur will be able to throw the 150 Class disc faster, and thus should experience a greater improvement in distance from a 150 Class disc than a pro.

But what about the three ways wind affects a disc's flight?

1) It can slow the disc down. As discussed above, the 150 Class disc should start with a greater initial speed and carry longer at low speeds. My experience with head-wind has been no less, and perhaps more distance, than with a heavy disc.

2) It can cause the disc to rise, missing a putt or striking a low-hanging branch. For putting into a head-wind, I recommend a slightly more stable disc than usual. A more stable putter, like the new Piranha, will force the nose down, counteracting the lifting effect of the wind

3) It can cause the disc to flip over. There are plenty of stable discs available in today's disc market. The key is to find the right one in 150 Class. I doubt you'll have trouble with a

light Viper or Whippet. If you do, use a light Griffin. It'll take a tow truck to flip that disc!

If you make the switch, I recommend you try a round throwing all 150 Class discs or your accuracy will probably suffer. It's difficult to get consistent release for the different arm speeds that result from throwing discs that vary in weight by 30-50 grams. The 150 Class disc has no limitations in performance due to its lighter weight. In most conditions they will fly farther than heavier discs. I strongly recommend these discs to amateur golfers or anyone who has difficulty throwing more than 350 feet consistently. I think you will be pleased with the improvement. ©

The world record
for distance is
190.07 meters or
around 623 feet.

The distance
record for a mini
is 90.15 meters or
around 299 feet.

Heck, Just Play Catch and Picnic

Sunday will hopefully turn into a casual, club-like, disc-oriented day for the pure enjoyment of just playing frisbee!

What is the World's Biggest Disc Golf Weekend?

The World's Biggest Disc Golf Weekend is a worldwide, simultaneous event designed to promote disc golf by getting everyone who plays the game to play a round together. Players go to their local course to take part, and anyone who has played disc golf previously is strongly encouraged to bring new players. Over 200 courses in over a dozen countries have taken part in the last two years.

So the idea is to get *everybody* who plays disc golf to come out and play a round. Here's how we get them to come out:

- We give them professional looking flyers
- We put up professional looking posters
- We offer players a great deal: a top-quality golf disc and a 100% cotton shirt for \$10
- We make it easy for people to take part by letting them pick their tee time and their foursome
- We promote it as a fun event, in which the emphasis is on playing, not competing
- We give out awards to the players who bring the most new people

By all playing "together" at the same time, we hope to show the world that disc golf is fun, healthy, and more popular than most people think. Through World's Biggest, we hope to get more media exposure for disc golf, start thousands of new people playing the game, and encourage parks departments to install disc golf courses in their local parks.

World's Biggest is also designed to be a fundraiser for the host city, promoter, or club. Through World's Biggest you get great merchandise and promotional materials at a very low cost. In addition to sales, you make 20% of all entry fees and an even higher percentage of local sponsorships

As far as we know, disc golf is the only sport in the world that gets all its enthusiasts out at the same time. World's Biggest is the way. And it's a great deal for *everyone* — players and promoters.

Hosted by the Barnstable Recreation Dept. - Presented by Caped Cod Fish Golf Association

World's Biggest Disc Golf Weekend

Saturday & Sunday
May 14th & 15th, 1994

Info: C.C.F.G.A.
149 Richardson Rd
Centerville MA 02632
(508) 771-4619

Burgess Park in
Marstons Mills on
Cape Cod

On Route 149 - 2.6 miles
south of Route 6 (Exit 5) -
or 1 mile north of Route 28

Join us for the biggest disc golf event in the history of this great sport. On May 14th & 15th, at disc golf courses all over the world, beginners and old timers will be getting together for a round of frisbee golf. Last year, Burgess Park was 2nd Place (IN THE WORLD) in a contest to win 9 free "poleholes." This year, *we intend to win*. We need you and all your friends for the biggest turnout ever!

Just for entering, you'll get a golf disc and a t-shirt. The round will only take about 2 hours, and it's just \$10 to enter*

No experience necessary! New players are encouraged to participate. There will be groups from all ages and levels of play: Beginners, Advanced, Men, Women, Juniors, Seniors, and J.F.F. (Just For Fun). Play will begin at 7 a.m., last tee-off at 5 p.m (Saturday or Sunday).

- ◊ Sign up quick and be among the first 100 or more to receive a free World's Biggest Mini!
- ◊ Talk three or more people who haven't ever played at a Burgess Park event into signing up and you'll receive a free Official Disc Golf Supporter Mini, Bumper Sticker, and Poster (please list your recruits on your entry form).
- ◊ Collect entry forms and fees from yourself and seven of your friends (whether they've played before or not) and send them to us by May 1st and we'll reward you with a free golf disc of your choice.

*Pre-Registration Date: If you haven't registered by Sunday, May 1st, you may have to pick up your shirt & disc after the event (bring a Frisbee just in case). Entries received after this date or on the day of the event will be \$12. Make checks payable to: C.C.F.G.A., 149 Richardson Rd., Centerville MA 02632 (508) 771-4619.

Mystic Pairs Field Day & Picnic

May 21, 1994

Harkness Memorial State Park, Waterford, CT

Contact Jeff O'Brien @ 203-536-1376

Everyone is invited to the Mystic Pairs Field Day & Picnic at beautiful Harkness Memorial State Park in Waterford, CT. Pick your own partners for all four events; DDC, MTA, Freestyle, & Picnic. How do you play pairs MTA? One person throws and the other catches. Fun is guaranteed for all events. Awards will be given to the overall best partner pickers, with one catch: you must have a different partner for each event. Picnic results do not count towards overall. A flyer will be forthcoming.

Normandy Farms Disc Golf League

Every Wednesday Evening 6pm-dark

Normandy Farms Campground • Foxboro, MA

Contact Toddy Brodeur (508)-376-8708

Informal gathering of disc golf play for cash. Every week each player gives money; some of it goes back to the winners that day, the rest goes into a pool which is then given to the player with the first hole-in-one. The pool will build up throughout the summer until someone hits an ace. Then it starts to build again. You need not play every week to participate.

Double Disc Court

More of it is coming to New England

Sunny Cade and Harvey Brandt (he is your DDC Players Association representative) are building on the successful Tuesday night gatherings with some larger, WEEKEND DDC events happening this spring. We hope these can be major practice and learning sessions for players of all abilities, as well as develop into something like the DDC Monthlies of Southern California (if you haven't been to one, I can't tell you how much fun you are missing). We are putting forth a tentative program and schedule of dates so that people can plan, comment, give words of encouragement, and make serious commitments to the game that is **the most fun you can have with a disc**.

The following dates and locations are not set in stone. So please, especially before travelling, feel free to confirm anything with Sunny (508) 464-5497, or Harvey (203) 772-1975.

Sunday	May 1	after Pulpit Rock (Saturday), Princeton, MA
Sat./Sun.	May 14,15	After World's Biggest, (in CT? call first)
Sat./Sun.	May 21,22	Harkness State Park near Mystic, CT
Sat./Sun.	June 18,19	New Haven, CT
Sat./Sun.	June 26	Day after Connecticut States, Woodstock, CT.

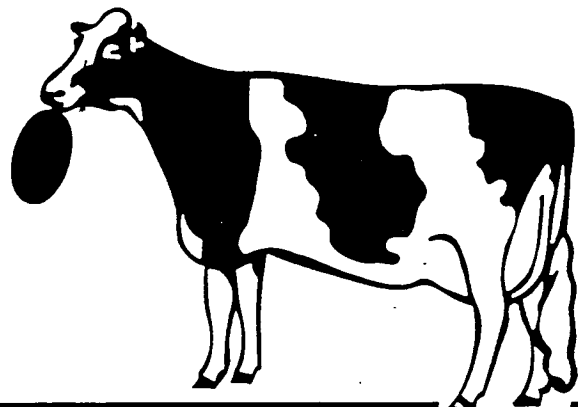

We are planning to have some one-day things and some two-day things. The two-day things would be a Saturday afternoon Sunday morning combination, perhaps with some freestyle, golf, or field events practice thrown in. Come for one day or both, spend the night locally.

We will be developing a phone tree, so let us know of your interest NOW!!! Give us a call, or mail a card. If interested in having one of the DDC events at YOUR home field, call us soon. Remember that we need: flat space for 2 courts (about 50 x 60 meters, total) and some sleeping space for players. If you want to join, or want more information on the DDCPA, call Harvey.©

Disc Golf Club News

Caped Cod Fish Golf Association

Lev, Nancy, Lindsey and the rest of the fish golfers are gearing up for the biggest, baddest, best World's Biggest Disc Golf Weekend on May 14, 15. They have reasonable hopes of winning a set of 9 pole holes from the Disc Golf Association. Let's all get down to help them out. Meanwhile, they have a well-marked, fast playing, mostly woods course with posts for holes.

Frozen Fruits

Recently held their 2nd annual winter tournament on a newly designed course. Unfortunately the course is closed to the public most of the year because of its location on a pick-your-own fruit farm and petting zoo.

Miantonomi Marauders

Held a successful Frostbite tournament which lived up to its name. Getting ready for hosting the RI State Championships in July. Play every Sunday afternoon, all are invited. Look them up when in Newport.

Normandy Farms Golf League

Starting a Wednesday evening league for anyone that can make it. Not necessary to be there every Wednesday. Normandy is open most of the year with 18 pole holes. Set in a campground where there is a fee for admission but many facilities are available.

Roseland Lake Park • Woodstock, CT

Connecticut's first permanent disc golf course. 18 hole course with posts for holes. Set in the woods and small fields around Roseland Lake Park in the Northeast corner of the state. Contact Carl Emerson for more info.

Beaver Brook Disc Golf Course • North Monmouth Maine

Set in Beaver Brook Campground. Small registration fee at office. Open during the summer only. Short par 2 course with vintage DGA poleholes.. Oldest course in New England.

North Calais Disc Golf Association

Somewhere in Vermont there are many people playing disc golf. This group may host the Vermont States. Look them up if your in the middle part of the state near Montpelier

Fifth Annual Frostbite Disc Golf Open

This was an incredible day. The sun was shining through scattered clouds with a brisk 20 knot wind coming from the Northwest. The temperature was somewhere between eight and twelve degrees Fahrenheit. The windchill was somewhere around 30

below zero. Still can you believe that at 8:25 am there was a 27 hole course set up to challenge the 21 hard core fanatics who live for the thrill of the moment. Of course, just getting up and down the hills without the ropes may have been

Jim Malone and two strokes ahead of Peter Anderson. The second round changed things slightly; Bob

**Common sense seen
as key to survival
on brutally cold day**

won by 4 strokes and Jim and Pete were tied for second place. We had tons of chicken soup hot and ready for lunch. Thanks for making the soup Jim, and to everyone else who either helped or showed up to play. I believe that the event was a success

and I had a good time and I can only hope that the competitors had as

Temperatures about to plunge

Snowstorm to be followed by arctic front packing sub-zero wind chill

impossible. The park was covered with three to four inches of hard crusty snow. The rock rings were icy bowls that even with the slightest spin putts would slide out. The first round ended with Bob DeCosta in the lead at 84, one stroke ahead of

much fun. I hope to see you all next year in January. I'm sure I will see you somewhere else before that. Till then may all your putts be true.

Gaylor Takes the Fruits

Eighteen disc golf enthusiasts from all over New England appeared in Ipswich, MA on February 26 to spend the day throwing discs amidst the picturesque farm setting that is Goodale Orchards. Three rounds of disc golf were played during a typical day for the winter of '94; the day began with a snow storm which left 4 inches of fresh snow on a foot of existing, ice-crusted snow. Then the sun came out and the wind started to pick up. By the final round, a constant 20 knot wind blew the snow horizontally across the course and the discs all ended up down-wind somewhere. The local favorite, Steve Gaylor, of Rowley, MA, managed to keep his discs under control and win the event by one stroke over Harvey Brandt.

The eighteen golfers who put their priorities ahead of the weather were treated to fresh coffee, hot mulled cider, and cider doughnuts around a roaring fire in the Goodale Orchard's country store, which is closed during the winter months. After a short delay to allow travelers to find Ipswich through the storm, the first round teed off with the snow still flying. By the end of the round, co-host Doug Russell had the lead in the *Open* division with the best round of the day at two over par. Steve Gaylor, Harvey Brandt, and Mike Klassner, Bob DeCosta, and Steve Hartwell rounded out the top six and were each one stroke apart.

A special ruling was called for after the first round when Bob DeCosta and Roy Doar complained that the third hole had been altered during the round. As it turned out, NEFA president extraordinaire T.M. Dyer had removed the snow from on top of the four foot wide millstone which left the stone covered with ice. Since the object was to have the disc come to rest on top of the stone, the removal of the snow caused DeCosta and Doar's putts to slide off. They were each given the stroke back (as if it mattered).

The second round got under way after a hearty lunch of vegetarian and meat lasagna, fresh hot French bread, garden salad, and apple cider. The round ended and Gaylor had tied Russell with Brandt one stroke behind. The third round was played in a vicious wind with Gaylor, Russell, and Brandt all jockeying for the lead. However, by the 10th hole Russell had succumbed to

Frozen Fruits continued from 25

the wind gods and had given his discs as a sacrifice while Gaylor and Brandt maintained their control. Gaylor took a one stroke lead going into the final eight holes and never let up, nailing a twenty foot putt on eighteen to seal the victory.

The *Not Open* division saw 5 competitors including two newcomers to the game. Matt Allen took the *Not Open* division by a whopping 36 strokes. Vermonter Tom 'Nappy' Donahue took the Worst

Score of the day prizes since none of the other worst score contenders played the third round. The Worst Time awards were not given because nobody had a bad time. However, frozen cider popsicles and strawberry yogurt popsicles were given to the Miantonomi Marauders just because. Prizes awarded were: Steve Gaylor received the Best Score trophy; Harvey Brandt got a frozen apple pie for the Best Score runner-up & being the 'grouping-man'; Matt Allen took the Best Time trophy, and Nappy Donahue brought home a frozen apple pie for having the worst score.

The event was once again a success and even had several spectators throughout the day. In addition, the local newspaper sent a photographer and printed an article (pictured above) as the lead story of the sports section. Many thanks to Goodale Orchards for hosting and to Maureen the Orchard's bakery manager for preparing all the fine food. Once again it was a great event and the people and the weather truly defined the meaning of Frozen Fruits.©

Rowley's Gaylor conquers Frozen Fruits Classic

Rowley's Gaylor, a 34-year-old disc golfer, won the Frozen Fruits Classic on Saturday. Gaylor, who is a member of the Rowley Disc Golf Club, finished the tournament with a score of 143. He was the only player to break 150. Gaylor's victory was a surprise to many, as he is a newcomer to the game. He had only played a few rounds of disc golf before the tournament. Gaylor's win was a testament to his skill and determination. He was praised by his fellow players and spectators alike. Gaylor's victory was a highlight of the tournament. It was a great day for everyone involved. The Frozen Fruits Classic was a success. It was a great event for the community. It was a great day for everyone involved. The Frozen Fruits Classic was a success. It was a great event for the community. It was a great day for everyone involved.
